VISION 2025 : EXECUTION [3/5]

WHY DID WE CHOSE TO GO TO MOON

“ We choose to go to the Moon! We choose to go to the Moon in this decade and do the other things, not because they are easy, but because they are hard; because that goal will serve to organize and measure the best of our energies and skills, because that challenge is one that we are willing to accept, one we are unwilling to postpone, and one we intend to win, and the others, too.”

WHY CHOSE TO TRANSFORM OURSELVES?

“We choose to transform ourselves! We choose to transform ourselves over next 5-7 years, not because they are easy, but because they are hard; because that goal will serve to organize and measure the best of our energies and skills; because that challenge will bring out the best in us; because that challenge is one that we are willing to accept, one we are unwilling to postpone, and one we intend to win.”
